

Nepal portable emergency power supply customization

Overview

Where to buy power supply units in Nepal?

Nepal - Shop for Best Online at Daraz.com.np Wide Variety of Power Supply Units. Great Prices, Even Better Service.

What voltage does a Nepalese power supply run on?

Like much of the world, Nepal power supply runs on 230V and 60 Hz. The US is unique in that it runs on 110V and 50Hz. This means you'll want to make sure that your devices are dual voltage before plugging them into a Nepalese power outlet. Fortunately most devices these days are dual voltage.

Do you need a power adapter in Nepal?

Unlike most countries, in Nepal, you cannot rely on just one adapter because you'll likely encounter three different power outlet types on your trip. You'll need three separate adapters to ensure you can charge your electronics everywhere you go.
