

New Zealand small power inverter manufacturer

Overview

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who are Sungrow solar inverters?

A global inverter and storage manufacturer with a complete range of products for solar and storage projects in Australia and New Zealand. Sungrow make a complete range of solar inverters and energy storage products for residential, commercial, industrial and utility grade solar projects.

What is a victron Energy Phoenix inverter?

Victron Energy Phoenix Inverters. Pure sine wave output, high peak power and high efficiency. Combined high frequency and line frequency technologies ensure the best of both worlds: smooth sine wave and rugged design. 12/24/48 Vdc models with 230 or 120 Vac output. (Please contact us for 120 Vac Models).

Who are Fronius inverters?

Fronius Inverters are a world leader in solar technology and one of New Zealand's most sought after and reputable inverters. Founded in Austria in 1945, they have over 65 years' experience producing innovative and intelligent power storage solutions.

What is an inverter & energy storage solution?

There is an inverter and energy storage solution for every application including grid connected, backup power and off grid. Designed specifically to suit Australian and New Zealand conditions and safety design standards.

What does a solar inverter do?

Our commitment to providing these advanced solar solutions reflects the high-quality renewable energy options residents trust for their homes. Solar inverters have one core function: to convert the Direct Current (DC) solar panels generate into an Alternating Current (AC), which is the type of electricity used in your home.
