

New energy storage projects in Germany

Overview

Listed below are the five largest energy storage projects by capacity in Germany, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a compl.

SMA Altenso (Altenso) and Munich-based asset manager MEAG (MEAG) have entered into an agreement to realize a second grid-scale battery energy storage system (BESS) in Germany, further strengthening the integration of renewables into the national grid.
