

New outdoor power supply for sale in Timor-Leste

Overview

What voltage is used in Timor Leste?

In Timor Leste, power plugs and sockets (outlets) of type C, type E, type F and type I are used. The standard voltage is 220 V at a frequency of 50 Hz. Timor-Leste, also known as East Timor, is a small island nation in Southeast Asia.

What type of plug does Timor Leste use?

Timor Leste uses a standard voltage of 220 volts and a frequency of 50 Hz. The country utilizes four different plug types: C, E, F, and I. Plug type C features two round pins, while plug type E, also known as the "Schuko" plug, has two round pins with two earth clips on the side. Plug type F is similar to type C but also includes two earth clips.

Do power plugs work in Timor-Leste?

In Timor-Leste, navigating power plugs can be a bit of a puzzle due to the variety of types in use, including C, E, F, and I. Understanding these plug types and knowing which countries share the same type can save you a headache and keep your devices charged.

Do I need a travel adapter for Timor Leste?

If you are traveling to Timor Leste with electronic devices that use a different plug type, you will need to bring a travel adapter. You can purchase travel adapters at most electronics stores or online. It's important to note that plug types C, E, and F are all compatible with each other.

Does Timor-Leste need a roof-top solar energy system?

In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators. Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

How much does electricity cost in Timor-Leste?

The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries. For instance, in Indonesia industrial electricity tariffs are 0.11 USD/kWh, compared to 0.24 USD/kWh in Timor-Leste
