

Nordic Energy Storage Container Supply Company

Overview

Who uses Nordic storage?

Nordic Storage controls more than 1 million cubic meters of storage capacity for bulk liquids. The customers range from international oil companies and traders to CSO companies and Scandinavian oil companies, industrial companies and energy producers.

Where is Nordic storage located?

Nordic Storage's storage terminals are strategically located along the Swedish coast (Gothenburg, Helsingborg, Malmö, Norrköping, Oskarshamn and Gävle) and in Denmark, in Aalborg. Nordic Storage offers services for a wide range of energy products (distillates, aviation fuels, biofuels, vegetable oils, fuel oils) and chemicals.

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Is Energi the most forward-looking Renewables Group in the Nordic region?

This acquisition reinforces Å Energi's ambition to be the most forward-looking renewables group in the Nordic region. Å Energi is Norway's biggest renewable energy group, with operations throughout the value chain from electricity generation to end users.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the

banner to kick it off.

Is Finland a good country for energy storage?

"We are very happy that our third energy storage project in Finland is with first class partner Å Energi. Finland is an excellent country for renewable energy and energy storage, with a stable regulatory framework and a positive and forward thinking grid operator in Fingrid." stated Hannu Koivusalo, Chairman and Managing Partner of AMP Tank.
