Overview

What is the largest PV rooftop plant in the Nordics?

The largest PV rooftop plant in the Nordics has been completed with 24.000 panels spanning 100,000 sqm. The project feeds the DSV's 175,000 sqm logistic center in Landskrona, Sweden, with renewable energy. The project utilizes 34 units of Sungrow's SG350HX string inverter.

Is Nordic solar integrating battery storage into a solar park project?

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is now launching the construction of its first project, which is located in Denmark.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

What is a fully integrated solar roof?

That's a promise. Our fully integrated solar roof is optimized for the aesthetical design of the whole house. The sleek vertical lines of a classy black roof will give your house an aesthetic look and blend in seamlessly with any neighborhood. Cutting-edge solar cells are integrated directly into high-quality metal sheets.

Is a solar roof a good alternative to a conventional roof?

Solar roof is a great alternative to conventional roof and as source of energy. In the long run, the price of a solar roof is even cheaper than a regular roof because my roof generates electricity over time.

How many solar panels will power Landskrona's biggest Cooling warehouse?

Built on the 175,000 sqm DSV logistics center in Landskrona, 24,000 solar panels spanning 100,000 sqm will generate 14 MWdc to power the entire facility and one of the region's biggest cooling warehouses.
