

# North Africa Lithium Power Energy Storage Project

### **Overview**

Why is Africa a key player in the global lithium supply chain?

Thanks to its vast lithium reserves and increasing investments in mining and processing facilities, Africa is emerging as a key player in the global lithium supply chain. As demand for lithium skyrockets due to its critical role in electric vehicle (EV) batteries and renewable energy storage, several African nations are ramping up production.

Why is Africa's lithium mining sector a hotspot for foreign investment?

As a result, Africa's lithium mining sector is poised for significant growth, making it a hotspot for foreign investment and technological advancement. The Arcadia Lithium Project in Zimbabwe stands out as one of the world's largest hard rock lithium resources, boasting measured reserves of 42.3 million tons.

Where is lithium found in Africa?

Africa is home to several notable lithium mines and projects, with countries like Zimbabwe, Namibia, Ghana, the Democratic Republic of Congo, and Mali possessing commercial quantities of this critical resource.

What is the largest lithium project in Mali?

4. Goulamina Lithium Project, Mali The Goulamina Lithium Project, developed through a partnership between mining companies Leo Lithium and Jiangxi Ganfeng Lithium, is Mali's largest lithium development and is projected to start production in the first half of 2024.

How much capital does a lithium project need?

Initial capital investment is crucial for the development of lithium mining projects across Africa. For instance, the Ewoyaa lithium project in Ghana requires a \$125 million investment, while the Goulamina lithium project in Mali exceeds \$320 million. These investments are vital for project viability and

operational success.

Which mining companies are involved in lithium production?

For example, the Karibib Lithium Project and the Uis mine in Namibia are notable for their substantial production volumes, which are crucial for the battery market and global lithium supply. Major mining companies involved in these ventures include Leo Lithium, Jiangxi Ganfeng Lithium, and Atlantic Lithium.

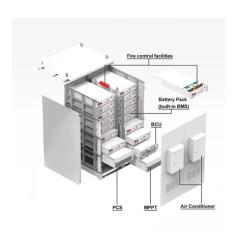

### **North Africa Lithium Power Energy Storage Project**

### Battery storage is booming in Africa

AFRICA is experiencing a major boom in battery storage, as residential homes, businesses and institutions like hospitals and schools cut down their dependence on national ...
