

# North Macedonia Home Energy Storage System Production

#### **Overview**

Here are some key points:Cost: Lithium-ion batteries for storage are averaging €450-€600 per kWh1.Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway2.Hybrid Solutions: There are initiatives combining lithium-ion batteries with other technologies for effective energy storage3.Energy Storage Projects: The North Macedonia Energy Storage Container Project is a significant development aimed at enhancing renewable energy integration4.Local Production: A new factory for lithium-ion battery systems is being established, with an investment of €65 million5.
