

# Norwegian integrated energy storage equipment manufacturer

### **Overview**

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell manufacturers and system integrators with world-leading robotic technology for automated cell stacking and battery module assembly. Is Norsk Hydro planning a new pumped storage power plant?

In April 2020, the Norwegian Ministry of Energy granted Norsk Hydro a concession to develop the Illvatn pumped storage power plant. An application for a plan change is being processed by the Norwegian Water Resources and Energy Directorate (NVE).

What projects are under development in Norway?

Another project under development in Norway is a new power plant at Torolmen, in the Ardal municipality, with an estimated annual production of around 30 GWh. The total investment for this project could reach NOK290 million (US\$27.4 million), with potential construction starting as early as 2027.

Will Norsk Hydro build a 84 GWh pumped storage project?

(Photo: Narrativ/Hydro) Norsk Hydro, a Norwegian aluminum and renewable energy company, is planning a 84 GWh pumped storage project in Luster Municipality, Norway. The Illvatn project, with an estimated price tag of NOK1.2 billion (US\$113 million), is expected to begin construction in 2025, targeting 2028 or 2029 for full operation.
