

Oman Energy Storage Project Environmental Protection

Overview

How has Oman restructured its energy sector?

In 2018, Oman restructured its utilities sector, making the Ministry of Oil & Gas (MOG) the main policymaker for all energy projects, and the MOG has also led on the implementation of several renewable energy projects.

Why is Oman notable for Environmental Protection?

Oman is known for having one of the best records in environmental conservation, pollution control, and maintenance of ecological balance according to the United Nations Environment Program (UNEP). It is even stated as having one of the world's most rigorously 'green' governments.

What is the Oman gas system project?

The Oman Gas System project is associated with the 182km Al Ain-Fujairah. Oman Gas Co SAOC (OGC), a subsidiary of Oman Oil Company S.A.O.C. is an oil and gas company that offers natural gas transportation services. The company provides project management services in pipeline construction.

How much will Oman's power sector invest in the next six years?

Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to 2030.
