

Outdoor 360-degree solar integrated machine

Overview

What is a 360° camera & how does it work?

The camera provides 360° coverage and tracks people, pets, and vehicles with accuracy. The camera scans 360° and records videos following the set schedule, or cruises among custom points at different times. Smart AI identifies people, pets, and vehicles while only sending you alerts when truly needed.

How do you use a 360° camera?

Combine into one sleek unit for a neater appearance or connect via a 4-meter cable to maximize sun exposure. The camera scans 360° and records videos following the set schedule, or cruises among custom points at different times.

What is a solar security wireless outdoor camera?

The solar security wireless outdoor camera may be rotated horizontally up to 355 degrees and vertically up to 90 degrees. The activities can be monitored remotely via the “cloudedge” app, which provides 360° coverage of the region of interest. This PTZ outdoor camera is great for home and business security.

Is a solar security wireless outdoor camera better than a 1080p camera?

[2K Full HD, 360° Pan and Tilt Control] With a 3mp (2048 x 1536) resolution, it is 1.5 times more detailed than a 1080p camera. The solar security wireless outdoor camera may be rotated horizontally up to 355 degrees and vertically up to 90 degrees.

What is a 4K 360-degree PTZ camera?

4K 360-degree PTZ cameras are highly versatile video surveillance devices. They can take on multiple general-purpose cameras because of these PTZ functions. They can be controlled manually or automated. This makes them ideal for monitoring a wide-open space like a parking lot or filling station.
