

Outdoor power supply professional installation

Overview

In our project, we run a line from an existing outdoor outlet on the house to a light and receptacle at the edge of a garden path. It incorporates a combination light switch/outlet.

Determine where you want the electrical post positioned and then find the nearest existing outlet to supply the power. Note: That outlet must be.

Mark the cable route from the power source (house outlet) to the position of the remote outlet with spray paint. Call the utility companies to mark any underground lines. Get an.

Drive 1/2-inch rigid metal conduit under the walkway with a sledgehammer. Pro tip: Never use “thin wall” conduit, which corrodes quickly, or.

To make sure the “feeder” outlet you choose is GFCI protected, look for the characteristic GFCI buttons, or if it’s a standard outlet.
