

Photovoltaic solar panel prices in Kazakhstan

Overview

How many solar power plants are there in Kazakhstan?

As of now, there are 51 solar power plants in operation in Kazakhstan. The government aimed to have 28 solar power plants operational by the end of 2021 and successfully met this goal. The potential of solar energy in Kazakhstan is estimated at 2.5 billion kWh per year.

What is Kazakhstan's largest solar project?

Kazakhstan's largest solar project – a 100 MW field in Saran, Karaganda Province – was opened last year by a German company, also with EBRD backing. Russian engineers doubled capacity at the EBRD-backed Burnoye plant in Zhambyl in 2018.

Are there incentives for businesses to install solar energy in Kazakhstan?

Yes, there are incentives for businesses wanting to install solar energy in Kazakhstan. The government of Kazakhstan has implemented a number of policies and programs to promote the use of renewable energy sources, including solar energy. These include tax exemptions, grants, and subsidies for businesses that install solar systems.
