

Portugal s mobile energy storage solution

Overview

The battery energy storage project utilizes Powin's Centipede Stack750 and a power conversion system from Hitachi Energy, underscoring the importance of partnership between global companies in supporting Europe's energy transition. Does Portugal need a power grid stability & energy storage solution?

Portugal: The country aims to source over 90% of its power from domestic renewables by 2030, with significant contributions from wind and hydroelectric power. Despite these advancements, the blackout revealed the need for improved grid stability and energy storage solutions to handle unexpected disruptions.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

Is Europe ready for energy storage?

Europe is expected to deploy over 90 GWh of utility-scale battery energy storage projects by 2030, and we are well positioned to support this demand along with the wider EMEA region's rapid energy storage growth," said Powin CEO, Jeff Waters.

What happened in Portugal during a power outage?

Portugal: Cities such as Lisbon, Porto, Coimbra, and Braga were impacted. The outage also caused disruptions in public transportation, communication networks, hospitals, and commercial centers, leading to widespread challenges for residents and businesses alike. Where Do Spain and Portugal Get Most of Their Electricity?

Portugal s mobile energy storage solution

- ✓ LIQUID/AIR COOLING
- ✓ INTELLIGENT INTEGRATION
- ✓ PROTECTION IP54/IP55
- ✓ BATTERY /6000 CYCLES
