

Price of a 4 kW solar power generation system

Overview

On average, a 4 kW solar panel system costs \$11,200, according to real-world quotes on the EnergySage Marketplace from 2025 data. However, your price may differ—solar costs can vary significantly from state to state. How much does a 4 kW solar panel cost?

On average, a 4 kW solar panel system costs \$11,000, according to real-world quotes on the EnergySage Marketplace from the first half of 2024. However, your price may differ; solar costs can vary significantly from state to state. The table below should give you an idea of what you can expect to pay for a 4 kW solar panel system in your state.

How much does a solar system cost?

This means that homeowners can earn money for the extra electricity their solar system produces. With the current electricity costs, it is possible to achieve a 20% return on investment per year based on the panels' cost. The typical cost for a 4kW solar system is around \$8,000.

Where can I find a 4 kW solar system for sale?

SunWatts offers affordable 4 kW PV systems for sale, featuring daily updates with the lowest prices on solar panels. These 4kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans, and instructions.

What is included in a 4 kW solar kit?

These 4kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 4 kW PV systems for sale.

Can a 4KW Solar System be sold back to the grid?

Any excess solar energy generated by the 4kW system that is not used can be

sold back to the grid. This means that homeowners can earn money for the extra electricity their solar system produces. With the current electricity costs, it is possible to achieve a 20% return on investment per year based on the panels' cost.

How much electricity does a 4 kW solar system produce?

A 4 kW solar panel system produces about 5,808 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. DIYing a 4 kW solar panel system usually isn't your best bet: You're much better off hiring a professional solar company for optimal results. How much does a 4 kW solar system cost?
