

Prismatic lithium battery equipment

Overview

Equipped with a PLC-controlled system, it allows real-time monitoring of extrusion distance and pressure, ensuring high accuracy and safety. Its versatile design supports various battery module sizes, making it an essential tool for lithium-ion battery pack manufacturing.

Prismatic lithium battery equipment

[Prismatic Battery Production Line](#)

The prismatic lithium battery production line is used to manufacture metal-cased prismatic lithium-ion batteries, primarily for electric vehicles and energy storage systems.
