

# Romania energy storage photovoltaic power generation

# **Overview**

Romania aims to install 515 MWh of storage capacity by the end of 2025 across eleven photovoltaic projects totalling 672 MW. Key projects include Parau 2, with 343 MW of photovoltaic power and a 150 MWh Battery Energy Storage System (BESS).

# Romania energy storage photovoltaic power generation

The Ministry of Energy is promoting investment in the full value chain of photovoltaic cells and panels by financing production, assembly and ...
