

## Russian solar energy storage lithium battery

#### **Overview**

Will Russia build a lithium battery factory in 2025?

Russian nuclear energy giant Rosatom has acquired a 49% stake in Enertech International, a South Korean lithium-ion battery specialist, and has announced plans to build a gigafactory at an unspecified location in Russia. The start of production is scheduled for 2025.

Are lithium-ion solar batteries the best way to store solar energy?

It is no secret that 12v lithium-ion solar batteries are the best way to store solar energy in a small off-grid power system. With the price of both complete solar kits and solar energy storage capacities continuing to drop, there has never been a better time to take advantage of lithium-ion technology.

Why is Russia a good place to buy a battery?

Russia is a country with a large number of battery manufacturers that play an important role in the global energy industry. From electric vehicle manufacturers to solar energy companies, these companies are constantly innovating to develop more efficient and environmentally friendly batteries.

Does Rosatom make lithium ion batteries?

Rosatom announced on November 23 that it had established a new subsidiary — Renera — dedicated to the manufacture of energy storage systems. Lithium ion batteries are already being produced by Rosatom, but the group said Renera's task would be to coordinate and expand manufacturing capacity and "consider" building additional gigafactories.

Does Russia have a nuclear power plant?

The Russian state-owned conglomerate's nuclear power plants currently cover around 20% of Russia's total electricity demand. This content is protected by copyright and may not be reused. #### Who makes Liotech batteries?

Liotech produces lithium-ion batteries and is considered as one of the top 10 battery manufacturers in Russia. Learn more in our article on what are lithium batteries used for. Liotech is subsidiary of RUSNANO that has a high-tech factory capable of producing large quantities of batteries for various purposes.
