

Samoa Chemical Energy Storage Power Station

Overview

The Fiaga Power Station – Battery Energy Storage System is a 6,000kW energy storage project located in Samoa. The electro-chemical battery energy storage project uses lithium-ion as its storage technology. The project was commissioned in 2018.

Samoa Chemical Energy Storage Power Station

<u>Energy storage project : American Samoa , EVLO Energy</u>

Our system is designed to harness the abundant energy of the sun and provide cleaner energy for the vibrant community of American Samoa, located midway between Hawai'i and New ...

Email Contact

Constructed by Eastern Power Solutions, the solar-plus-storage projects will provide 10 MW / 20 MWh of critical clean capacity for the American Samoa grid.
