

# Sao Tome and Principe Solar Panel Photovoltaic Company

### **Overview**

Does Sao Tome & Principe have solar power?

According to data from the International Renewably Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

Who owns electricity in Sao Tome & Principe?

Electrical power in the country is provided by the Empresa de Agua e Electricidade (EMAE), a public-private company that is 51% owned by the Government of Sao Tome and Principe, and the remaining 41% is jointly owned by the private sector, with Sonangol holding 40% and a local anonymous enterprise owning the remaining 9%.

Does Sao Tome and Principe have a national energy policy?

Sao Tome and Principe has not yet developed a National Energy Policy. However, with every change in Government, the incoming Government formulates its development plan with the last one prepared in October 2013 and entitled "Grandes Opções do Plano para 2014" (Major Options of the Plan for 2014).

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.
