

# Saudi Arabia grid-side energy storage cabinet model query

### **Overview**

What does BYD energy storage mean for Saudi Arabia?

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of the decade.

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

What is Saudi energy mix?

Saudi's optimal mix involves renewables accounting for 50% of electricity generation by the end of the decade. The new energy storage systems will be installed across five locations in the Kingdom and fully integrated into the national power transmission network.

Is Saudi Arabia a leader in battery energy storage?

The Kingdom enters the top ten global rankings for battery energy storage with ambitious future capacity goals. Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage.

How is Saudi Arabia transforming its energy sector?

Saudi Arabia's energy sector is undergoing a comprehensive transformation, reinforcing its leadership position in the production and export of a variety of energy forms. By the end of 2024, it is projected that the total capacity of renewable energy projects across all stages of development will reach 44.1 GW.

How much does a solar PV project cost in Saudi Arabia?

In Saudi Arabia, each of the two awarded rounds of the Renewable Energy Project Development Ofice (REPDO) auctions, totaling 2.17 GW, in addition to the PIF-led projects, has received record-low prices. The 300 MW Sakkaka solar PV project, the first project under REPDO, set a record tarif of 1.34 USD cents/kWh in February 2018.
