

Serbia s lithium battery energy storage is safe and reliable

Overview

Lithium has been touted in Serbia as a solution for various issues, from electromobility to renewable energy storage. However, experts from EPS (Electric Power Industry of Serbia) express caution regarding its use for energy storage, particularly compared to reversible hydroelectric power plants.

Serbia s lithium battery energy storage is safe and reliable

About lithium and lithium in Serbia

Detailed data on different types of lithium batteries, including the new type of lithium batteries with solid electrolyte is given. Data on lithium production and lithium demand, including the
