

Solar cell prices in Sweden

Overview

What is the Sweden Solar power market?

The Sweden Solar Power Market is Segmented by Location of Deployment (Rooftop, Ground-mounted) and End User (Residential, Commercial and Industrial (C&I), Utility). The market size and forecasts are provided in terms of installed capacity Megawatts (MW) for all the above segments. Image © Mordor Intelligence.

How has the energy price crisis impacted solar panels in Sweden?

The energy price crisis has further accelerated the adoption of solar panel solutions in Sweden. As of August 2022, the average monthly electricity wholesale price reached EUR 190.12/MWh, marking a dramatic increase of approximately 350% from EUR 54.34/MWh in January 2019.

Why is solar energy so popular in Sweden?

Local special circumstances: In Sweden, the solar energy market is uniquely influenced by its geographical advantages, such as long summer days and extensive sunlight exposure, particularly in the north. This natural abundance fosters higher efficiency in solar energy production compared to many other regions.

How much solar energy will Sweden generate in 2025?

In Sweden, electricity generation in the Solar Energy market is projected to reach 2.11bn kWh in 2025. An annual growth rate of 11.71% is anticipated during the period from 2025 to 2029 (CAGR 2025-2029).

Why are consumers interested in solar energy in Sweden?

Customer preferences: Consumers in Sweden are increasingly prioritizing sustainability and energy independence, prompting a growing interest in solar energy solutions for both residential and commercial applications. This shift is influenced by a younger demographic that values eco-friendly living and seeks

to reduce their carbon footprint.

Which segment dominates the Swedish solar power market in 2024?

The solar rooftop segment continues to dominate the Swedish solar power market, holding approximately 55% market share in 2024.
