

Solar charging mobile power storage cabinet

Overview

What is a solar mobile charger?

A convenient and portable power solution for camping and outdoor power applications made with high grade monocrystalline panels. Keep your smartphone, tablet, and other USB charged gadgets running for longer with this solar mobile charger.

What is a commercial solar battery storage system?

The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system. The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance.

What is a rack-mounted modular PCS?

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected according to the solar energy thermal storage system capacity requirements of microgrid and other scenarios.
