Where can I find low prices on solar panels?

Find low prices on solar panels and panels by the pallet. Call one of our experienced solar design techs to talk about your project toll free at 888-498-3331. If you have your most recent electric bill handy, we'll be able to get started with the design process right away.

What are the best Cheap solar panels for residential use?

SunPower is consistently one of our top picks for solar companies overall, and we found the Maxeon X-Series to be one of the best cheap panels for residential use. SunPower guarantees its X-Series panels won't lose more than 8% of their power production over 25 years, and its 25-year warranty covers panel equipment and power.

Where can I find discount solar panels?

SunWatts is the best place to find solar panels with discount, volume pricing, and low cost solar products at wholesale prices. This is your source for discount prices on solar panels by the pallet. These panels are new, A-grade, UL certified, qualify for tax credits, rebates and come with a 25 year manufacturer's performance warranty.

Are cheap solar panels worth it?

It's important to realize that even cheap solar panels will still require a

substantial upfront investment. Solar panels account for just 12% of a solar installation's total costs, so even choosing more affordable solar panels only lowers the price by a few hundred dollars.

Which solar panel should I buy?

Eagle Continental: This panel is my recommendation for the most affordable solar panel for homeowners on a budget. Its 19.8% efficiency rating is good, but not great, but its cost per watt, coming in at \$2.25, is hard to beat. Eagle G4: The Eagle G4 is a big step up from the Continental.
