

# South African vanadium flow battery

## **Overview**

A solar-plus-storage microgrid being deployed at an alloys mine in South Africa will feature a vanadium flow battery energy storage system, using locally sourced vanadium electrolyte.

## South African vanadium flow battery

# <u>South Africa Has the Critical Minerals, But Is That Enough to ...</u>

South Africa is also the third vanadium producer, behind Russia and China. The mineral is used in vanadium redox flow batteries (VRFBs), which are known for their efficiency ...

## **Email Contact**

# <u>Turning South Africa into a global battery storage</u> powerhouse

South Africa has rich reserves of minerals like manganese and vanadium which can position it strongly to emerge as a leader in the expanding global battery industry.
