

Taipei lithium-ion energy storage battery prices

Overview

Lithium-ion battery pack prices dropped 20% from 2023 to a record low of \$115 per kilowatt-hour, according to analysis by research provider BloombergNEF (BNEF). What is trendforce lithium battery research?

TrendForce Lithium Battery Research provides intelligence on market prices and interpretations of market price trends through close and frequent communications with major suppliers, merchandizers, and traders of China's lithium battery supply chain, as well as cross-research and tracking on monthly spot prices for key products of the supply chain.

What is the demand for lithium-ion batteries in 2024?

That is more than 2.5 times annual demand for lithium-ion batteries in 2024, according to BNEF. While demand across all sectors saw year-on-year growth, the EV market – the biggest demand driver for batteries – grew more slowly than in recent years.

Why did lithium-ion battery prices drop 20% from 2023?

Lithium-ion battery pack prices dropped 20% from 2023 to a record low of \$115 per kilowatt-hour, according to analysis by research provider BloombergNEF (BNEF). Factors driving the decline include cell manufacturing overcapacity, economies of scale, low metal and component prices, adoption of lower-cost lithium-
