

Tender for Huawei power modules for Sweden s 5G base stations

Overview

Why did Pts ban Huawei products in the Swedish 5G network?

On June 22, 2021, the district administrative court announced that it was upholding the PTS decision to prohibit Huawei products in the Swedish 5G network, citing national security concerns, and declared that the prohibition may continue to apply henceforth. (Joint Case No. 231-20 and 2378-21.).

Is Huawei exclusion from 5G deployment in Sweden a pending dispute?

There is a pending dispute between Huawei and Sweden at the International Centre for Settlement of Investment Disputes regarding the exclusion of Huawei from the deployment of 5G in Sweden (ICSID Case No. ARB/22/2). The tribunal has permtted the European Commission to intervene in the proceedings as a non-disputing party. 9.

Why did Sweden delay 5G implementation?

The Swedish Electronic Communications Act was then amended to protect Sweden's national security interests, delaying new spectrum licences in the 3.5 GHz band. Telecom operators have also encountered delivery problems, causing further delays to 5G implementation. There are no known decisions regarding non-compliance with 5G concessions obligations.

Does Sweden have a 5G network?

In 2020, Sweden announced it was holding a public procurement bid on the development of its 5G network.

Why is Huawei a leader in the development of 5G?

With the aim of achieving ubiquitous green connectivity and computing, Huawei is a leader in the digitalization of site power. It works with the telecommunications industry to explore and drive the development of 5G based on the concept of simple, intelligent, and green.

Can a company use a radio transmitter for 5G?

Starting 1 January 2023, companies have been able to apply for local licences to use radio transmitters in the 3.7 GHz and 26 GHz bands, which may be used for 5G. This enables local 5G networks in industrial sites, mines, harbours, hospitals and other special premises.
