

The first submerged liquidcooled energy storage power station

Overview

The Meizhou Baohu energy storage power plant in Meizhou, South China's Guangdong Province, was put into operation on March 6. It is the world's first immersed liquid-cooling battery energy storage power plant.

The first submerged liquid-cooled energy storage power station

The First 100MW Liquid Cooling Energy Storage Project in China ...

Kehua Digital Energy provided the integrated liquid cooling ESS for the power station -- the first 100MW liquid cooling energy storage application in China, as well as an application ...
