

The largest energy storage battery base

Overview

The 400MW/1,600 MWh Moss Landing Energy Storage Facility is the world's largest battery energy storage system (BESS) project up until now. The huge energy facility was constructed at the retired Moss Landing Power Plant site in California, United States. Vistra Energy created the project in 2 phases.

The largest energy storage battery base

Top five energy storage projects in Australia

Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...
