

Top three outdoor power supply brands

Overview

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

What should I look for in a power supply?

You'll want a unit that can power a wide range of devices, from your laptop and phone to larger appliances like refrigerators and coffee makers. This adaptability makes them perfect for camping trips, road adventures, or home backup during outages. Look for models with multiple output options, including AC, USB-A, USB-C, and DC ports.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

How many ports does a power supply have?

With 11 ports, users can simultaneously charge multiple devices, making it perfect for camping and home backup. Customers have praised its performance, portability, and an impressive lifespan of 3,000 cycles over 10 years, solidifying its reputation as a reliable power source.

What types of batteries are used in portable power stations?

The two main classes of batteries you'll see right now in portable power stations are LiFePO4 and NCM. LiFePO4 batteries utilize lithium, iron, and phosphate, and are considered safer and longer lasting than other batteries.

What makes a good power station?

Stations with over 3000Wh can deliver power for extended periods, making them ideal for off-grid adventures or emergency situations. Furthermore, consider the variety of output options available. Models with multiple AC outlets and USB-C ports offer greater versatility, enabling you to support several devices at once.
