

Ukrainian energy storage explosion-proof container quotation

Overview

Does Ukraine have a gas storage capacity?

With its domestic needs met, Ukraine has offered 10bn cubic metres of gas storage capacity to partners – roughly a third of its total volume. Storing gas in Ukraine offers European companies a hedge against future interferences to supply.

Can Ukraine bolster Europe's energy security?

Ukraine is playing a useful role in bolstering Europe's energy security, offering European companies alternative gas-storage options as EU storages approach full capacity, and as concerns continue over potential price spikes from war-related supply disruptions.

Does Russia's missile attack affect Ukraine's underground gas storage system?

When Russia launched a major missile attack on a Ukrainian gas storage facility in April it inadvertently highlighted the resilience of Ukraine's underground gas storage system, and bolstered claims by operator Ukrtransgaz that the war has little impact on its ability to inject and withdraw gas on behalf of domestic and international companies.

Will Russia attack Ukraine if the gas contract expires?

According to the data for 2023, there were around 13bcm (billion cubic metres) running through Ukraine to European customers. When the contract expires, the assumption is that Russia would intensify attacks, particularly on the gas infrastructure, because they will have no incentive in keeping it safe.”.

Does Ukraine's gas transit contract expire in 2023?

For Szymon Kardaś, Senior Policy Fellow for energy at ECFR's Warsaw Office, the attack raised an existential concern. “The gas transit contract between

Ukraine and Russia expires at the end of this year. According to the data for 2023, there were around 13bcm (billion cubic metres) running through Ukraine to European customers.

How do I choose a container for explosion-safe storage?

The containers offer ease of placement and relocation, allowing flexibility for your storage site. To find out how these units can be customized and receive a pricing estimate, simply request a quote. In Summary: Choose from 10 ft or 20 ft containers for explosion-safe storage suitable for offshore.
