

Vietnam has put into operation energy storage power station

Overview

When will the battery energy storage system be installed in Vietnam?

The power plant will be the first in Vietnam to deploy the Battery Energy Storage System. Nguyen Nam Thang, CEO of AMIAC Renewables, said at the signing ceremony there was a determination to put the project into operation before the third quarter of 2024.

Which power plants will become baseload power for Vietnam's Electricity System?

Bac Ai pumped Storage hydropower plant and the upcoming Ninh Thuan 1 and 2 nuclear power plants, all in Ninh Thuan province- a renewable energy hub, are set to become the baseload power for Vietnam's electricity system, Ninh Thuan Vice Chairman Trinh Minh Hoang said at the ceremony.

How much does a new energy storage project cost in Vietnam?

Photo by AMI AC Renewables An energy storage project costing nearly \$3 million will be built in Khanh Hoa Province as part of a new joint venture. Funded by the U.S. Mission Vietnam, the project aims to demonstrate how it can reduce power losses and help Vietnam integrate more renewable energy into the nation's power system.

Will Vietnam's first pumped hydropower plant boost national energy security?

This will be Vietnam's first pumped storage hydropower plant and one of EVN's key national energy projects this year. The plant is expected to boost national energy security and support Vietnam's transition to a greener, more sustainable economy.

Where is a pumped storage hydropower plant located in Vietnam?

State utility Vietnam Electricity (EVN) kicked off the construction of phase 2 of the 1,200-MW Bac Ai pumped storage hydropower plant on Saturday. The project, located in Vietnam's south-central province of Ninh Thuan, is the first

of its kind in Vietnam.

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.
