

Walk-in Energy Storage Container Configuration

Overview

Three installation-level lithium-ion battery (LIB) energy storage system (ESS) tests were conducted to the specifications of the UL 9540A standard test method [1]. Each test included a mocked-up initiating ES.

Walk-in Energy Storage Container Configuration

<u>Full-scale walk-in containerized lithium-ion</u> <u>battery energy storage</u>

Each test included a mocked-up initiating ESS unit rack and two target ESS unit racks installed within a standard size 6.06 m (20 ft) International Organization for ...
