

What is container energy storage in Ukraine

Overview

How big is Ukraine's gas storage?

The highest level of gas stock and its third part is done by non-resident customers. Ukraine's vast storage facilities are not just an asset for the country itself, but rather for the entire continent. The storage system is the world's third biggest by capacity – behind only the United States and Russia – can store over 30 bcm.

Why did DTEK launch the largest battery storage facility in Eastern Europe?

(Bohdan Nazarenko/DTEK)© Kyiv Independent DTEK has launched the largest battery storage facility in eastern Europe to bolster Ukraine's energy system ahead of expected mass Russian attacks on infrastructure this winter, the Ukrainian energy giant announced on Sept. 10.

How long does it take to build a thermal power plant in Ukraine?

Constructions of this size normally take 12-15 months, but DTEK noted Ukraine's urgency for the project to commence before the autumn-winter season. The country is bracing for another wave of Russian attacks, with a recent strike on a thermal power plant in Kyiv Oblast cutting off electricity to part of the region on Sept. 8.
