

What is the inverter voltage in Armenia

3354KWH

1331.2V 2520AH

Overview

Just like the rest of Europe, the voltage in Armenia is 230 volts and the frequency is 50 Hz. Armenia has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Do I need a power plug adapter or voltage converter in Armenia?

In Armenia, the power plug sockets are of types C and F. You will need a power plug adapter if the plugs of your devices do not fit into these sockets. The standard voltage is 230 V and the frequency is 50 Hz.

What voltage does Armenia use?

Armenia runs with the standard voltage of 220-230 V, and 50 Hz frequency. If you come from places such as the UK, Europe, Australia and many countries in Asia and Africa, the standard that you use is 220-240 V. This is just fine and you don't need to get any voltage converters.

What is the standard power socket voltage in Armenia?

All power sockets in Armenia provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Armenia if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Where can I buy a voltage converter in Armenia?

If you need a voltage converter for your trip to Armenia, you can find one on Amazon or at your local electronics store. It's important to check the voltage and frequency of your laptop, tablet, camera, or other electronic devices before traveling.

What type of plug can I use in Armenia?

Also known as the Schuko plug. Plugs of type C and E will also fit in a type F

socket. All power sockets in Armenia provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Armenia if the outlet voltage in your own country is between 220V-240V.
