

Which BESS power station is the cheapest in Guinea-Bissau

Overview

How efficient is Guinea-Bissau's electricity sub-sector?

The electricity sub-sector in Guinea-Bissau remains one of the least efficient in West Africa.

How much does a Bess battery cost?

Factoring in these costs from the beginning ensures there are no unexpected expenses when the battery reaches the end of its useful life. To better understand BESS costs, it's useful to look at the cost per kilowatt-hour (kWh) stored. As of recent data, the average cost of a BESS is approximately \$400-\$600 per kWh. Here's a simple breakdown:

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.
